

From the very beginning you will experience a different form of health care at the Natural Healing Medical Center.

Dr. Cramer is your personal doctor and health consultant. From personally following up on lab results to personally returning your phone calls and emails, he is a physician who is dedicated to your health and well-being.

Your initial visit will last anywhere from half an hour to an hour and a half. Dr. Cramer will thoroughly review your past medical history, current health conditions and future health goals.

Utilizing physical exams and functional laboratory testing as needed, Dr. Cramer will work to find the underlying cause of your health conditions and develop a treatment plan using natural, alternative and conventional therapies to help you achieve your optimal level of health.
